

## ABOUT US

Alamo PMI is the San Antonio Chapter of the Project Management Institute. For over 20 years, we've been connecting, educating and guiding professionals in both the public and private industry. Our chapter serves over 1500 members in the greater San Antonio, Texas area. We provide networking activities, training opportunities, and skills development.

## THE PMI TALENT TRIANGLE®

While technical skills are core to project and program management, PMI research tells us they're not enough in today's increasingly complex and competitive global marketplace. The ideal skill set is a combination of technical, leadership, and strategic business management expertise.

What this means to you - a focus on developing the skills you need to meet the evolving demands of your profession.

## VOLUNTEERING

We couldn't do what we do, without you.

Volunteering is essential to APMI. Sign up though the VRMS on our website. Let us know what areas interest you, and we can find a way for you to contribute - as little or as much as you like. Earn PDUs while giving back!

## STUDENT/YOUNG PROFESSIONAL

PMI Memberships aren't just for the working project practitioners. If you are enrolled full time in a degree-granting program, a PMI student membership may be right for you.

## MILITARY AFFAIRS

The project management profession is an ideal career for military veterans. Your skills are directly transferrable.

Leading cross-functional teams to ensure accomplishment of mission objectives, and managing budgets & performance appraisal are all key proficiencies military veterans and Project Managers share.

## ALAMO PREP COURSES

The chapter offers preparation programs designed to help you pass PMI's Certification exams. Each course meets the required number of contact training hours.

Our instructors are diverse certified practitioners who offer an array of test-taking hints, sample scenario-based questions, training reinforcement exercises, and practical knowledge needed for the actual exam.
